docebo®

A world's Top 10 ranked SaaS E-Learning solutions provider, Docebo is the industry's most comprehensive solution for training management, chosen by some of the world's most respected companies to achieve operational efficiency.

Established in 2005, Docebo has over 28,000 installations worldwide, and is sold in more than 65 countries around the world. The Docebo LMS offers an enterprise solution for government agencies, institutions, and mid-sized to large organizations in a variety of industries including: banking and finance, aviation, retail, service, information technologies, manufacturing, telecommunications and energy.

Docebo is committed to providing integrated E-Learning solutions and services to help deliver and manage corporate training, and generate a rapid return on investment (ROI). With Docebo, organizations can effectively implement a scalable LMS solution and dramatically lower the Total Cost of Ownership (TCO).

Enterprise solutions for scalable E-Learning

E-Learning Platform
An easy to use LMS to manage, deliver and track ILT and WBT activities. Available for global clients in more than 30 languages, Docebo is a robust and extendable LMS that brings to the market a pure SaaS solution including the option to activate an Enterprise Cloud Solution (ECS) App which allows the LMS to run on a dedicated Cloud instance. Docebo is not just an E-Learning tool but is especially designed to be delivered in SaaS as an ecosystem of features, modules and apps that can be adapted to any requirement.

Multimedia Courses
We design and develop pedagogically sound multilingual E-Learning courses which are both SCORM and Tin Can (xAPI) compliant, and available on all mobile devices. Our Serious Games engage learners and enable immersive approaches in real-case scenarios.

Professional Services
Docebo supports its customers throughout all the steps of their E-Learning project. From initiation to implementation, both pre and post-sales, our Senior Experts provide guidance, methodology, monitoring and reporting.

Docebo offers:

Optimal user interaction & experience (UIX)
With its user-friendly HTML5 user interface Docebo provides an optimal user experience on both desktop and mobile.

Feature-rich course area
Trainers will find all the functionalities they need to build an effective environment for courses in the one place. A trainer can add or delete training widgets, enable social functions, upload or create training materials, and then manage them with ease.

User Management
Docebo offers you a variety of options to easily manage users. You can manage large numbers of users, groups, business units, or any other silo within your user base. You can also manage user hierarchies and create power users with customized permissions.

Course Management
Using Catalogues and Labels you can organise course view and enrollment. Docebo enables the management of multiple course catalogues, whilst the e-Commerce App allows you to sell courses. With Curricula and Paths you can design professional training programs and certifications.

Testing, tracking and reporting
Advanced test engine and course tracking features, combined with a rich selection of default and custom reports enable you to easily monitor and track performance. Smart reports unify data from different sources, helping you to measure the effectiveness of learning. Unlike other LMS solutions, users have the flexibility to download everything.

Certificates management
Docebo gives the possibility to create, print and digitally sign training certificates. Release and expiration policies can be configured according to the specific needs of your organization.

Off-the-shelf integration
An extensive selection of Web Apps unique to Docebo for advanced customization and extended projects, the marketplace includes: Social Networks (Facebook, Linkedin, Twitter), Videoconference systems (Adobe Connect, BigBlueButton, Cisco Webex, GoToMeeting, OnSync, etc.), CMS websites (Joomla, Wordpress and Drupal), Salesforce, Google Analytics and Google Apps.

API and SSO
The API & SSO App allows customers to use Docebo's APIs to activate the SSO (Single Sign On) with other systems and to build deeper integrations.

Course Marketplace
Docebo has a third party Course Marketplace - an ever-growing library of online courses from the best international content providers with more than 400 courses available in different languages and accessible in a single click. Courses in the Marketplace are developed by recognized content distributors such as Cegos and SPEEX. Topics covered include: Compliance, Health and Safety, Language, and Soft Skills.

Added value
Installation comes with 15 courses included in all subscription plans. Topics covered include: Authoring tools tutorials, Soft Skills, Business English, and Management skills.

Self-provisioning
Docebo is a fully web-based SaaS (as a service) platform, which means users can independently deploy an LMS from the Docebo website within minutes. Docebo offers a Cloud LMS solution with content on 51 servers worldwide so that organizations of all sizes can adopt a fully web-based approach.

Flexible pricing plans
Docebo LMS comes with a convenient, scalable monthly pricing plan tailored for med-large enterprises and making it a cost-effective investment that leverages the benefits and flexibility of a pure SaaS.
